

PEDS6 Program

	Monday	Tuesday	Wednesday	Thursday	Friday
09:00		Opening		Fred Johnson	Duck
09:20		PEDS6		Learning and Adaptation in the Management of Waterbird Harvests.	
09:40		Diego Pavón Jordán		Exploiting dichromatism to disentangle the effects of adult survival and recruitment on the population dynamics of waterfowl. Adrien Tableau* & Alain Caizergues	
10:00		Waterbirds and climate change adaptation in the European network of protected areas		Is hidden heterogeneity a common phenomenon in ducks? Emilienne Grzegorzcyk*, Camille Schatz, Roger Pradel, Alain Caizergues, Kévin Le-Rest, Charlotte Francesiaz, Jocelyn Champagnon, Matthieu Guillemain, Cyril Eraud	
10:20		Population trends, threats, and conservation for the last known breeding population of Velvet Scoter in the Caucasus. Nika Paposhvili		Survival of wild and farmed-released mallards: the Swedish example. Pär Söderquist*, Gunnar Gunnarsson, Johan Elmberg, Lisa Dessborn	
10:40		Monitoring of four globally threatened ducks breeding in Morocco: preliminary results and implication for conservation. Sidi Imad Cherkaoui*, Brahim Hemiani, Zouhair Amhaouch		Using reward rings to evaluate hunting harvest rates in ducks (Anatidae). Matthieu Guillemain*, Marion Gelin, Betty Plaquin, Emilienne Grzegorzcyk, Alain Caizergues, Guillaume Souchay, Roger Pradel, Jean-Dominique Lebreton, Jocelyn Champagnon & Léo Bacon	Capture and
11:00		Portuguese Wintering Waterbird Monitoring Program – last 20 years of duck results. Vitor Encarnação*, Filipe Moniz, Nuno Ventinhas & David Rodrigues		coffee-break	coffee-break
11:20		coffee-break		Blind shots: Illegal shooting counteracts conservation efforts for the marbled teal <i>Marmaronetta angustirostris</i> . Juan Pérez-García*, Esther Sebastián-González, Roberto Rodríguez-Caro, Ana Aguilar, Francisco Robles	Marking
11:40		Changes in duck breeding populations as the result of changing feeding conditions in Czechia. Petr Musil*, Zuzana Musilová, Jan Zouhar, Monika Homolková, Dorota Gajdošová & Šárka Neužilová		Seaducks in German sea areas: High international importance, inadequate protection. Nele Markones	
12:00		Population status of the globally threatened Common Pochard <i>Aythya ferina</i> in its eastern range. Saulius Švažas*, Alexander Mischenko, Alexander Kozulin & Alexandre Czajkowski		Can studies of breeding success and migration routes explain the recent declines of Common Eider, Velvet Scoter and Red-breasted Merganser in the Baltic Sea? Fredrik Haas*, Niklas Liljebäck, Johan Månsson, Ib Krag Petersen, Jacob Sterup, Adam Stålnäbb & Iben Hove Sørensen	
12:20		Predicting spatio-temporal distributions of waterfowl populations using citizen science data and Gaussian process modelling. Antti Piironen*, Juho Piironen & Toni Laaksonen	Field-Trip	Gulls' protection of duck nests disappear: let's help both of them by artificial floating islands. Zuzana Musilová*, Petr Musil, Milan Hladík, Diégo Pavón-Jordán, Šárka Neužilová, Dorota Gajdošová, Monika Homolková, Ondřej Sedláček	
12:40		Taking detection into account during duck counts – applications in Camargue, Southern France. David Vallecillo, Matthieu Guillemain & Jocelyn Champagnon*	Mondego	Do alien predators pose a particular risk to duck nests in Northern Europe? Sari Holopainen*, Veli-Matti Väinänen, Mia Vehkajä & Anthony Fox	Workshop
13:00		Lunch	Lowlands	Lunch	Lunch
14:00		Poster Session		Poster Session	In case of interest -
15:00	Arrival	Jonas Waldenström		Niels Kanstrup & Rafael Mateo	
15:20		On ducks and flu – avian influenza in migratory waterfowl		Waterfowl Lead Poisoning within EU and consequences of the EU lead ban on wetlands	Duck
15:40		Assessing different capturing techniques for wintering ducks, different freshwaters ecosystem in Bangladesh and Understanding Movement Ecology. ABM Sarowar Alam*, Kazi Azmiri, Sakib Ahmed, Jonas Waldenström & Mariëlle van Toor		Long-term trends and drivers of female body condition – implication for reproductive success in Common Pochard ( <i>Aythya ferina</i> ) and Tufted Duck ( <i>Aythya fuligula</i> ). Dorota Gajdošová*, Petr Musil, Jan Zouhar, Zuzana Musilová & Šárka Neužilová	Capture and
16:00	Participants	Quantitative year-round modelling of the movements of European duck populations. Davies, J.G.1*, Gargallo, G., Robinson, R.A. & Baillie, S.R.		Trophic interactions in waterbird communities – a large-scale study from Swedish wetlands. Elsie Kjeller*, Henric Djerf, Johan Elmberg, Sari Holopainen, Hannu Pöysä, Pär Söderquist, Jonas Waldenström & Gunnar Gunnarsson	Marking
16:20		Migration of Pintail <i>Anas acuta</i> wintering in Portugal. David Rodrigues*, Maria Ester Figueiredo, Pedro Henriques, Fernando Arede, Loïc Podvin, Mariëlle van Toor, António Fabião & Jonas Waldenström		Pattern in duck broods' distribution is driven by aquatic invertebrates' diversity and biomass. Šárka Neužilová, Ondřej Sedláček*, Zuzana Musilová, Monika Homolková, Dorota Gajdošová & Petr Musil	Workshop
16:40		coffee-break		Diet of the Northern shoveler <i>Spatula clypeata</i> in pre-nuptial stopover sites in the Marais breton and Marais poitevin (Vendée, France). Axelle Moreau*, Christine Dupuy, Pierrick Bocher, Pascal Bonnin & Sébastien Farau	
17:00	Registration	Results of a multi-year tracking study of common shelduck ( <i>Tadorna tadorna</i> ) in north-west Europe, in relation to offshore wind farms. Ros Green*, Niall Burton, Aonghais Cook, Samantha Franks, Jonathan Green		coffee-break	Field
17:20		Assessing habitat use of Velvet Scoters from external transmitters could help reduce accidental bycatch from fisheries. Julius Morkūnas*, Yann Rouxel, Rasa Morkūnė, Paola Forri, Ramūnas Žydėlis		Food selection by spring migratory ducks. Mike Eichholz*, Arthur Hitchcock Jr., Richard Schultheis, Jacob Straub, Robert Gates, John Coluccy, Tina Yerkes	Trip to
17:40		Endocrine DISRUPTing chemicals in ducks breeding in the Baltic area. Céline Arzel* et al.		Three years of seed dispersal by mallards in Hungary. Renáta Urygán, Balázs Lukács, Réka Fekete, Attila Molnár, András Nagy, Ádám Lovas-Kiss*	São Jacinto
18:00		Population genetics of marbled teal: comparing captive and wild populations from Spain and Iraq, with implications for ongoing release programmes. Andy Green*, Violeta Muñoz, Alexander Ball, Raquel Lopez-Luque, Muhammad Ghazali,		Traits defining dispersal of seeds by Anatidae species in North America. Bia Almeida*, Giliandro Silva & Andy Green	Dunes Nature
18:20				Plant dispersal by waterfowl across the Americas: first insights and perspectives from the Nearctic and Neotropical regions. Giliandro Silva*, Bia Almeida, Leonardo Maltchik & Andy Green	Reserve
18:40		Optics workshop		Awards Session	
19:00			PEDS6	PEDS6 Closing	
20:00	Dinner	Dinner	Dinner	Dinner	Dinner
